

LEADERSHIP IN KENTUCKY

Nearly **60%**  of companies

face leadership talent shortages
which impede performance.

In 2009, US companies spent **\$12 BILLION**
on leadership development.

100% of the **TOP 20 COMPANIES**
for leadership development had
CEOs who were **actively involved**
in developing leadership talent.

Students who are leaders in high school

complete **0.35 more years**
of education than their
non-leader peers.

High school leadership is
predicated to increase the
probability of attending
a **post-secondary** institution
by a **minimum of 5 percent**
and to increase the **probability**
of **holding a college degree**
by **at least 9.5 percent**.

You'll gain confidence

You can develop
communication skills

You'll gain responsibility

You can develop
negotiation skills

You'll be able to network

What leadership can do for you**

You'll gain
management skills

You can hone problem-
solving skills

You'll discover new talents

You'll be recognized

You'll improve your resumé

Of everything we've learned about the art and science
of reforming a failing school in the past decade,

**school leadership is second
only to teacher quality**

in terms of importance—and the more dire a school's predicament,
the greater the need for strong leadership.

**Because of this, the emphasis is now
less on the dynamic teacher and more
on the whole school environment. *****

In college, Club leaders are

1.8 TIMES

more likely to graduate
in four years than
non-club leaders. ****
